PROJECTS

ENTROPY LOOP — github.com/LucHL/Entropy-Loop

- Entropy Loop is a video game I created as part of my final-year project.
  - Unity C#

ECLIPSE — github.com/LucHL/Eclipse

- Eclipse is an open-world RPG video game I'm developing in my spare time.
  - Unity C#
  - Ollama for local AI with game entities

SITEWAB — *Private repository*

- This is a social network I developed in my spare time.
  - Mobile: React Native + TypeScript
  - Backend: TypeScript Express, hosted locally with Tailscale
